EXPERIENCE

Techreale Onsite
Assosiate FrontEnd Developer Mobile *2023 – Present*

- A dedicated React Native Developer focused on building high-quality, full-featured mobile applications for both Android and iOS. I specialize in creating robust and maintainable code using TypeScript and ensuring a modern, seamless user experience through my knowledge of UI design patterns.
- My core competencies and technical expertise include :
- API & Integration: Proficient in consuming and integrating various Third-Party Services and APIs, including the implementation of secure Payment Gateways.
- Mobile Analytics & Engagement: Expertise in using Firebase services specifically for Analytics and Push Notifications to inform development decisions and drive user engagement.
- Full Deployment Cycle: End-to-end management of the application lifecycle, from version control using Git to successful submission and deployment on the Google Play Store and Apple App Store.
- Platform Tooling: Skilled in utilizing Android Studio and Xcode to manage native configurations, platform-specific code, and ensure optimal performance.
- I thrive on turning complex business requirements into performant, user-friendly mobile solutions

PROJECTS

- i-Pass: AMTS & BRTS
  - Build an application for apply online/offline , digital/physical bus pass for AMTS,BRTS and COMBO.
  - Govt offical project build for Ahemdabad Muncipal Corporation.
  - Integrated 2 payment gateways phi commerce and ccavenue for online payment for i-pass application.
